

Recycle Your Old Computers!!!

Bring Them To Computer Ministry

You can donate your old computers, monitors, printers and other peripherals to a Christian non-profit ministry that refurbishes them and sends them to needy groups locally and all over the world.

Computer Ministry, Inc. is a non-profit 501(c)(3) organization. Our mission is to provide assistance and improve efficiency within churches and other organizations of need regardless of creed, denomination, geographic location or race by providing them technical solutions consisting of computer hardware and software to accomplish their tasks without financial cost or obligation.

Our volunteer technicians refurbish the computers we receive and load new software onto them. We then ship them to people and groups in need of technological assistance. Those computers and peripherals that cannot be refurbished are torn down by our volunteers. We sell the scrap materials to approved recyclers to generate working capital for our non-profit operation.

Bring Us Your Old Computers and Peripherals

Where: Mission Central Warehouse, 5 Pleasant View Drive, Mechanicsburg, PA 17050
