### **Notes about Blue Mountain's EZ-SLOPE TICKETS:**

EZ-Slope tickets allow the purchaser to go directly to the slopes without having to redeem a voucher for a jacket tag at the ticket office. The new ticket contains a RFID chip within the card which will be scanned as the customer enters the slopes. The customer simply needs to have the lift ticket in their pocket. The signal can be blocked by cell phones and by other Blue Mountain tickets. For this reason, please tell customers to keep their tickets in a different pocket than their cell phones. In addition, if a customer has more than one ticket, the reader in the gate will read the signal from the first card it finds, even if the card is expired. Customers should only carry their current ticket, and cannot carry tickets belonging to their friends or family members.
